VTR-BRXJ	R2	Abstain	4	2026-10-21 17:31:49

Integrity & compliance

This certificate confirms that each registered voter could cast at most one ballot per item, that delegate weights were applied server-side, and that totals above equal the sum of the ledger. Ballot secrecy is preserved: personal identities are held separately and released only through a restricted, reason-logged administrator export.

Ledger fingerprint (SHA-256): 9c4e1b7a…e2f07d31 · This is a sample document with fictional data.
